Vietnam Company Setup Guide

The end-to-end playbook for setting up a 100%-foreign-owned company in Vietnam. Documents, timelines, costs, and the common mistakes we see.

PHASE 01 · 1-2 WEEKS

Pre-engagement

- Confirm the sector is open to foreign investment
- Confirm the entity type (LLC vs JSC) and capital amount
- Engage local counsel for the licensing authority liaison
- Document preparation: parent-company documents, passports, project proposal

PHASE 02 · 3-6 WEEKS

Investment Registration Certificate (IRC)

- Submit the IRC application to the Department of Planning and Investment
- Respond to queries on project scope, capital, environmental impact
- Receive the IRC recording the project, capital, scope, and investor

PHASE 03 · 1-2 WEEKS

Enterprise Registration Certificate (ERC)

- Submit the ERC application with the company's charter and legal representative
- Receive the ERC recording the entity name, address, charter, and members

PHASE 04 · 4-12 WEEKS

Sector sub-licences (if applicable)

- Conditional sectors require sub-licences from the relevant ministry
- Each sub-licence has its own timeline and document requirements

PHASE 05 · 2-4 WEEKS

Post-licence registrations

- Tax code registration with the GDT
- Social insurance employer registration
- Company seal registration
- Bank account opening in the company's name
- SBV capital registration (for FDI)
- Customs registration (where applicable)

PHASE 06 · 2-4 WEEKS

Operational readiness

- Chart of accounts and accounting system setup
- Recruit and onboard first employees (with work permits for foreign staff)
- Register the office lease and the legal address
- Brief management on the compliance calendar

NEXT STEP

Want us to handle the setup?

Our end-to-end setup engagement takes the project from document preparation to post-licence registrations. One engagement, one fee, predictable timeline.

Book a free 30-minute consultation and we will scope the engagement and quote a fixed fee.
